### Don't have an email account?

This site requires a valid email address. If you do not have an email address, you may create a FREE Email account with one of these popular providers:

- [Gmail](#)
- [Yahoo!](#)
- [Hotmail](#)

The security screen will display, and member will need to follow instructions.

The Two-Factor Authentication screen will display, and member will need to choose how to receive the notification (Text, Mobile, Email verification).

Enter the chosen method. A display box will appear.

---

Please complete the following:

**Set up Two-factor Authentication**

Enable additional security for your account

To keep your account secure, please enable one of the following security steps. This method, also referred to as two-factor authentication, will make it harder for someone to access your account with just a stolen password. We offer a few different ways to set this up and you can change this later from within your account settings.

[Set up email verification](#)

A code will be sent to your email account.

[Set up text message verification](#)

A code will be sent to your phone via text message.

[Set up mobile app verification](#)

A code will be generated by a mobile app like Google Authenticator, LastPass, or Authy.

Finish

Cancel

Enter the chosen method. A display box will appear:

The screenshot shows a modal window titled "Two-Factor Authentication" with the sub-heading "Set up text message verification". The text inside the modal reads: "To enable this method, we must first send a one-time security code to your mobile phone number. Enter or confirm the phone number below and click **Send code**." Below this text are two input fields: "Phone Number" and "One-time security code". To the right of the "Phone Number" field is a "Send code" button. Below the "One-time security code" field is a link that says "Didn't receive a code? Resend". At the bottom of the modal are two buttons: "Enable" and "Cancel".

Enter the required information and then click on *Send Code*.

Once you receive the security code enter that number in the One-Time Security Code Field and click on *Enable the finish*. The member is now logged into the Member Web Portal.

A confirmation will display to confirm, and the member will click on *Finish*.

### Set up Two-Factor Authentication

Two-Factor Authentication or verification (2FA) is a security process in which the person provides two factors to verify they are who they say they are. For example, your existing username and password as well as a one-time security code that is sent to a device you own.

For your security your plan requires that Two-Factor Authentication be configured, if you have any questions please contact your plan.
