

Your Health Info on the Go

The app that puts your health plan at your fingertips. Available for Android and Apple!

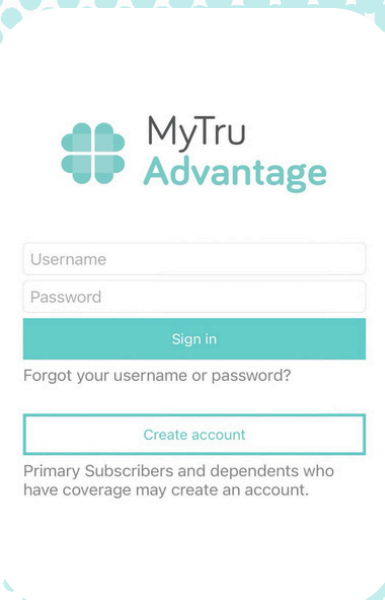

Download it today to get instant access to your health plan details.

Features:

- **View Eligibility:** Shows active coverage and accumulator information such as total amount, paid amount, deductible identifiers, and In-Network vs. Out-of-Network.
- **View Claims:** Configurable view of claim detail, claim status, date, provider, and patient responsibility.
- **Receive Push Notifications:** When a secure message has been sent a push notification as well as a badge notification will be sent to your mobile device.
- **Send Secure Messages:** Send questions to customer service about claims, eligibility, primary care physician changes, address changes, and request a new ID card.
- **View ID Card:** Support for PDF or image types with the ability to send via email.
- **Access Provider Directory:** Search between provider and facilities using current location or a location entered as well as the ability to switch between list and map results.

ID Card

To save your ID card, click on the ID icon to load your card info and a photo, then select email to recipient and save your card for future access.
